

## VOLUME II.

### SUBJECT INDEX.

#### **American Society for Testing Materials.**

- Annual Report of the Executive Committee of the —, 358.
- By-Laws of the —, 322.
- Charter of the —, 320.
- Contents of Previous Publications of the —, 366.
- Deceased Members of the —, 356.
- General Information Concerning the —, 328.
- Geographical Distribution of Members of the —, 356.
- List of Members of the —, 332.
- Officers, Members of the Executive Committee, and Standing Committees of the —, 331.
- Past Officers of the —, 357.
- Report of Auditing Committee of the —, 365.

#### **Address.**

- Annual — by the Retiring President, Henry M. Howe, 17.

#### **Beams.**

- Tests of Reinforced Concrete —. W. Kendrick Hatt, 161.

#### **Bridges.**

- Is it Desirable to Specify a Single Grade of Structural Steel for — of Ordinary Spans? Topical Discussion, 50.

#### **Cast Iron.**

- A Quick and Automatic Taper-Scale Test for —. Asa W. Whitney, 217.
- Effect of Variations in the Constituents of —. W. G. Scott, 181. Discussion, 200.
- High Strength of White Iron Castings as Influenced by Heat Treatment. Alex. E. Outerbridge, Jr., 229. Discussion, 240.
- Notes on Current Specifications for — Pipe. Walter Wood, 243.
- On the Constitution of —. Henry M. Howe, 246. Discussion, 276.
- Present Status of Testing —. Richard Moldenke, 207. Discussion, 213.
- The Need of Foundry Experience for the Proper Inspection and Testing of —. Thos. D. West, 210. Discussion, 213.

#### **Cement.**

- Testing in Municipal Laboratories. Richard L. Humphrey, 150.
- Standard — Specifications. R. W. Lesley, 121. Discussion, 133.
- The Advantages of Uniformity in Specifications for — and Methods of Testing. George S. Webster, 128. Discussion, 133.
- The Chemical Analysis of —: Its Possibilities and Limitations. Richard K. Meade, 139. Discussion, 146.

**Concrete.**

Tests of Reinforced — Beams. W. Kendrick Hatt, 161.

**Impact Tests.**

See Tests.

**International Association for Testing Materials.**

By-Laws of the —, 370.

General Information Concerning the —, 326.

Officers of the —, 369.

Report on the Buda-Pesth Congress of the —. Henry M. Howe, 279.

Technical Problems, Committees and Referees of the —, 374.

**Laboratories.**

Cement Testing in Municipal —. Richard L. Humphrey, 150.

**Pipe.**

Notes on Current Specifications for Cast Iron —. Walter Wood, 243.

**President's Address.**

See Address.

**Proceedings.**

— of the Fifth Annual Meeting, 17.

Summary of —, Fifth Annual Meeting, 5.

**Rails.**

Proposed Modifications of the Standard Specifications for Steel —.  
Topical Discussion, 23.

Finishing Temperature and Structure of Steel —. Albert Sauveur,  
79. Discussion, 85.

— Temperatures. Simon Strock Martin, 75. Discussion, 85.

**Reinforced Concrete.**

See Concrete.

**Rivets.**

Steel —. Gaetano Lanza, 110.

**Specifications.**

Is it Desirable to Specify a Single Grade of Structural Steel for  
Bridges of Ordinary Spans? Topical Discussion, 50.

Notes on Current — for Cast Iron Pipe. Walter Wood, 243.

Proposed Modifications of the Standard — for Steel Rails. Topical  
Discussion, 23.

Standard Cement —. R. W. Lesley, 121. Discussion, 133.

The Advantages of Uniformity in — for Cement and Methods of  
Testing. George S. Webster, 128. Discussion, 133.

**Standard Specifications.**

See Specifications.

**Steel.**

Finishing Temperature and Structure of — Rails. Albert Sauveur,  
79. Discussion, 85.

Is it Desirable to Specify a Single Grade of Structural — for  
Bridges of Ordinary Spans? Topical Discussion, 50.

Proposed Modifications of the Standard Specifications for — Rails.  
Topical Discussion, 23.

— Rail Temperatures. Simon Strock Martin, 75. Discussion, 85.

— Rivets. Gaetano Lanza, 110.

The Relation between the Basic Open-Hearth Process and the Physical Properties of —. Topical Discussion, 97.

**Technolexicon.**

Technolexicon, 381.

**Testing.**

See also Tests.

Bibliography on Impact Tests and Impact — Machines. W. Kendrick Hatt and Edgar Marburg, 283.

Cement — in Municipal Laboratories. Richard L. Humphrey, 150.

Present Status of — Cast Iron. Richard Moldenke, 207. Discussion, 213.

The Advantages of Uniformity in Specifications for Cement and Methods of —. George S. Webster, 128. Discussion, 133.

The Ethics of —. Paul Kreuzpointner, 118.

The Need of Foundry Experience for the Proper Inspection and — of Cast Iron. Thos. D. West, 210. Discussion, 213.

**Testing Laboratories.**

See Laboratories.

**Testing Machines.**

Bibliography on Impact Tests and Impact —. W. Kendrick Hatt and Edgar Marburg, 283.

**Tests.**

Bibliography on Impact — and Impact Testing Machines. W. Kendrick Hatt and Edgar Marburg, 283.

Quick and Automatic Taper-Scale —. Asa W. Whitney, 217.

Rules for Standard — of Materials Formulated by the German Association for Testing Materials (English Translation), 298.

— of Reinforced Concrete Beams. W. Kendrick Hatt, 161.

## AUTHOR INDEX.

---

- Aiken, W. A.**  
Discussion, 133.
- Boller, A. P.**  
Is it Desirable to Specify a Single Grade of Structural Steel for  
Bridges of Ordinary Spans? 50.
- Campbell, H. H.**  
Discussion, 24, 26, 27, 31, 39, 44, 46, 70, 74, 94, 99, 102.
- Carhart, P. E.**  
Discussion, 29, 34, 96.
- Christie, James.**  
Discussion, 42, 73.
- Condron, T. L.**  
Is it Desirable to Specify a Single Grade of Structural Steel for  
Bridges of Ordinary Spans? 52.  
Discussion, 69, 72, 102.
- Cooper, Theodore.**  
Is it Desirable to Specify a Single Grade of Structural Steel for  
Bridges of Ordinary Spans? 57.
- Dudley, Charles B.**  
Discussion, 23, 40, 42, 49, 74, 91, 92, 93, 97, 101, 102, 106, 201, 215,  
216, 276.
- Dudley, P. H.**  
Discussion, 85.
- Flagg, Stanley G., Jr.**  
Discussion, 241.
- Greiner, J. E.**  
Is it Desirable to Specify a Single Grade of Structural Steel for  
Bridges of Ordinary Spans? 58.  
Discussion, 68.
- Hatt, W. Kendrick.**  
Tests of Reinforced Concrete Beams, 161.  
Bibliography on Impact Tests and Impact Testing Machines, 283.
- Howe, Henry M.**  
Annual Address by the Retiring President, 17.  
On the Constitution of Cast Iron, 246.  
Report on the Buda-Pesth Congress, 279.  
Discussion, 27, 34, 37, 38, 47, 90, 278.
- Humphrey, Richard L.**  
Cement Testing in Municipal Laboratories, 150.  
Discussion, 135.
- Huston, Charles L.**  
Discussion, 49.

- Job, Robert.**  
Discussion, 25, 26, 27, 31, 33, 37, 38, 39, 89, 135.
- Kenney, E. F.**  
Discussion, 30, 37, 93, 95.
- Kreuzpointner, Paul.**  
The Ethics of Testing, 118.  
Discussion, 39, 103, 201.
- Lanza, Gaetano.**  
Steel Rivets, 110.
- Lesley, R. W.**  
Standard Cement Specifications, 121.  
Discussion, 135.
- McLeod, John.**  
Is it Desirable to Specify a Single Grade of Structural Steel for  
Bridges of Ordinary Spans, 60.  
Discussion, 23, 39, 41, 42, 43, 69, 91, 93, 94, 95.
- Marburg, Edgar.**  
Bibliography on Impact Tests and Impact Testing Machines, 283.
- Martin, Simon Strock.**  
Rail Temperatures, 75.
- Meade, Richard K.**  
The Chemical Analysis of Cement: Its Possibilities and Limitations,  
139.
- Moldenke, Richard.**  
Present Status of Testing Cast Iron, 207.  
Discussion, 200, 205, 215, 240, 241, 278.
- Outerbridge, Alex. E., Jr.**  
High Strength of White Iron Castings as Influenced by Heat Treat-  
ment, 229.  
Discussion, 214, 241.
- Sauveur, Albert.**  
Finishing Temperature and Structure of Steel Rails, 79.  
Discussion, 27, 37, 45, 96, 204, 205, 213, 214, 216, 240, 276.
- Schneider, C. C.**  
Is it Desirable to Specify a Single Grade of Structural Steel for  
Bridges of Ordinary Spans? 62.
- Scott, W. G.**  
Effect of Variations in the Constituents of Cast Iron, 181.
- Snow, J. P.**  
Is it Desirable to Specify a Single Grade of Structural Steel for  
Bridges of Ordinary Spans? 66.  
Discussion, 73.
- Taylor, W. P.**  
Discussion, 134.
- Thackray, George E.**  
Discussion, 29, 34, 71, 95.

**Voorhees, S. S.**

Discussion, 32, 204, 205.

**Webster, George S.**

The Advantages of Uniformity in Specifications for Cement and Methods of Testing, 128.

**Webster, William R.**

Discussion, 27, 43, 45, 49, 69, 74, 96, 104.

**West, Thos. D.**

The Need of Foundry Experience for the Proper Inspection and Testing of Cast Iron, 210.

Discussion, 203, 204, 213, 215.

**Whitney, Asa W.**

A Quick and Automatic Taper-Scale Test, 217.

Discussion, 200, 202, 203, 205.

**Wille, H. V.**

Discussion, 107.

**Wood, Walter.**

Notes on Current Specifications for Cast Iron Pipe, 243.
